Work Experience

Wellstack / Lead Product Designer - UX

AUG 2024 - PRESENT, BANGALORE

As a Lead Product Designer, I lead the design vision for healthcare solutions, managing a team to deliver intuitive dashboards, including PowerBI dashboards and reports, data analytics interfaces, and seamless user experiences. My role involves planning tasks, mentoring designers, ensuring alignment with project goals, and overseeing the design of PowerBI dashboard reports

Sr. Product Designer - UX

AUG 2022 - JUL 2024, BANGALORE

I handle product design for our healthcare solution, creating intuitive dashboards, data analytics interfaces, and reports for a seamless user experience. My role includes UX research, iterative design, brand standards, and user-friendly interactions. Through detailed flows and prototypes.

Mindtree / UX Designer

APR 2021 - AUG 2022, BANGALORE

Executed diverse B2B and B2C projects across domains, delivering effective websites, portals, and applications. Designed impactful PowerBI analytics dashboards for a major consumer goods corporation, enhancing product rating and review analytics across e-commerce platforms. Created user-friendly product and article webpages for a leading personal care brand, alongside marketing video edits for global markets including France and Thailand. Contributed to presales strategies for dashboard, app, and webpage designs.

OneOrigin / UI / UX Designer

OCT 2018 - FEB 2021, BANGALORE

Creating wireframes, prototypes, and user flows to communicate design concepts effectively, including for Chat AI product UI design and product user interaction UI design. Proficient in front-end languages for seamless implementation. Delivered animations for Voice AI and Chat AI, while also designing product analytics dashboards. Leveraging technology for effective client communication and project alignment. Additionally, I produce collaterals for marketing purposes.

Protocol Leads / Research Analyst

JUN 2016 - JUN 2017, KOLHAPUR

Conducting thorough research to fulfill client needs and align with their marketing objectives, I deliver tailored information to clients, ensuring it meets their specific requirements and supports their marketing strategies effectively.

Aerus Consultancy / Web Designer/Dev (Intern)

APR 2016 - JUN 2016, KOLHAPUR

I had the opportunity as a Intern to work extensively on frontend design for an online voting system portal. Additionally, I gained practical experience in Java, as well as C and C++ programming languages.
